

Structuring Charité's New Medical Curriculum – The Students' Perspective

Agata Mossakowski
Arne Riedlinger
Dorothee Schricke
Oliver Wendt

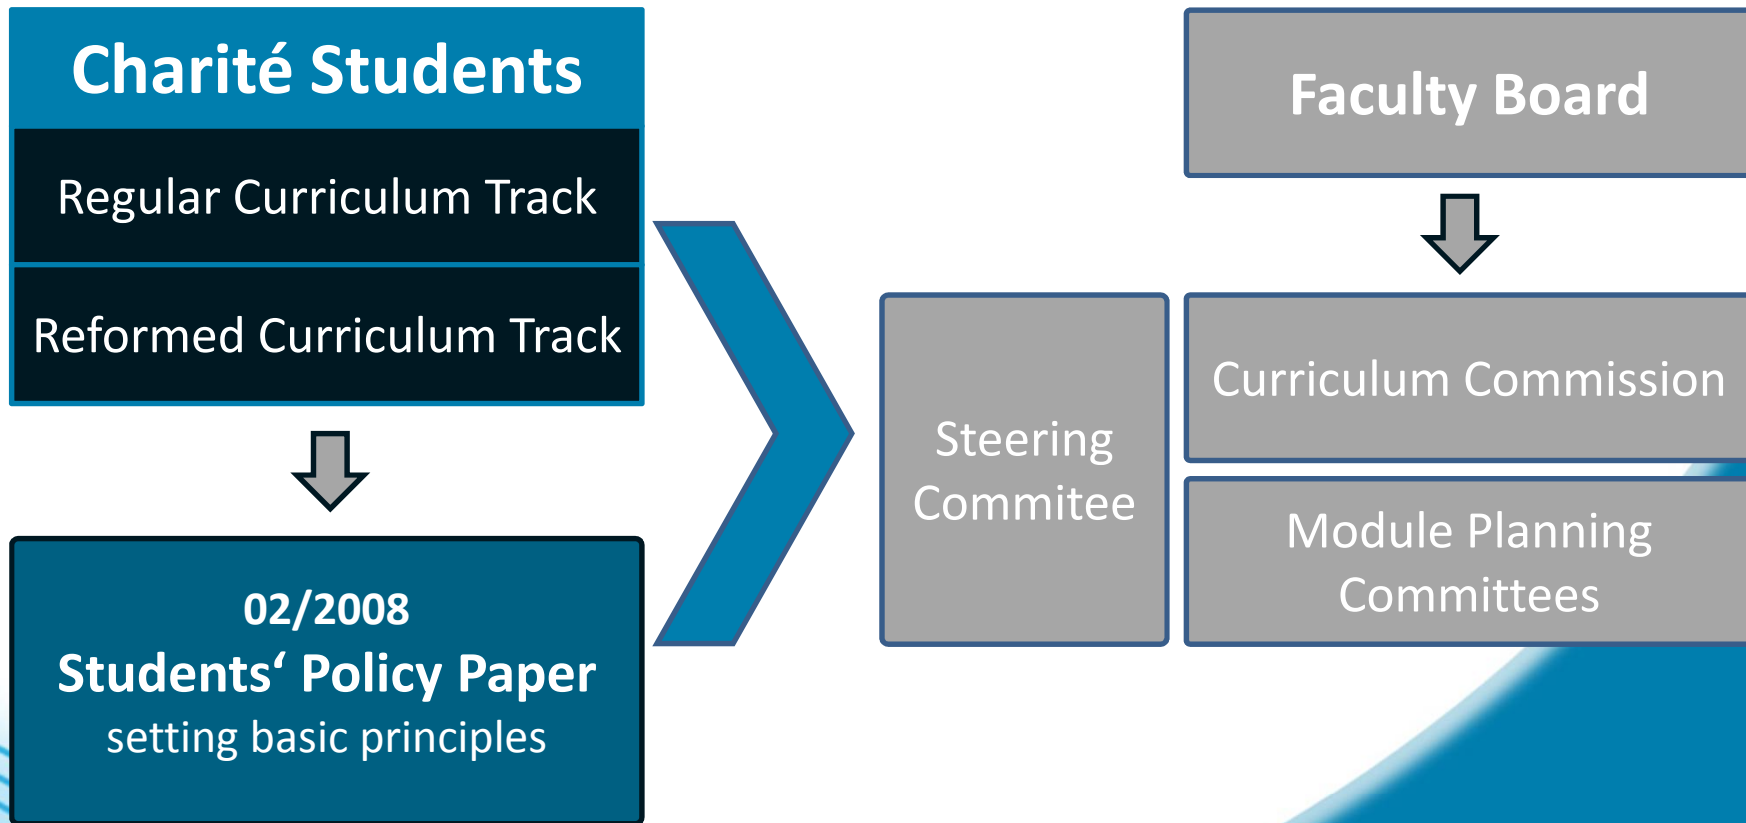

Students' Policy Paper 2008

- Objective: Modern Doctors
- Outcome Based Curriculum
- Critical Scientific Thinking
- Self-dependent and Lifelong Learning
- Clinical Skills
- Communication, Interaction, Teamwork
- Integration of Basic Science and Clinical Medicine

Physician

Student's involvement in curriculum planning

Physician

Federal Exam

Final Clinical Year (PJ)

1 year

Second Part

2 years

First Part

3 years

Basic Sciences

Clinical Medicine

The current debate about BA/MA and employability

- Minority problem: “drop outs”
 - Wide variety of job opportunities
 - Tasks in patient care should be defined by the healthcare systems’ needs
- ➔ Focus debate on creating common standards in medical education

Thank you
